

BUILD YOUR OWN COLLECTOR'S CASE

YOU WILL NEED:

- Printer
- A4 paper/card
- Scissors
- Glue stick
- Sticky tape
- Hole punch
- Ribbon/twine

INSTRUCTIONS:

- 1: Print on an A4 page, then cut along the grey outline. (Kids – ask an adult to help!)
- 2: Fold along the dotted lines, and use a hole punch to remove the two small circles.
- 3: Assemble by gluing the outer tab (1) to the inside of the opposite edge. Fold in the tabs on the bottom of the case in order (2, 3 + 4) and secure with sticky tape.
- 4: Fill the case with your minis, and then close the case by threading a ribbon through the two holes and tying a bow.
